

How to make a bees wax food wrap

*Place one sheet of the parchment paper on a flat surface.
Place cotton circle in the middle of the parchment paper.*

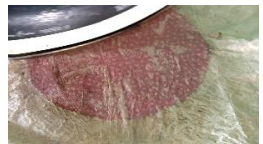

*Spread wax shavings over the centre of the cotton sheet.
Place second sheet of parchment paper on top of cotton square.*

*Turn iron to medium heat and place it over centre of the parchment paper until the wax the begins to melt.
Iron the melted wax away from the centre of the parchment paper and spread the wax all over the cotton sheet underneath.*

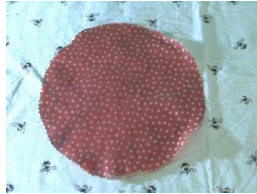

Ensure all areas of the cotton sheet look 'wet'.

Once all areas are wet with wax, peel away the top sheet of parchment paper and hang up the wrap to cool.

The end result!

Contents

- 16cm Cotton circle
- 25gm bees wax
- 2 squares parchment paper
